INTRODUCTION

Publications

DBS responsibilities in the Canadian statistical system concern the whole range of statistics on economic and social activities in Canada. The number of subjects dealt with is therefore quite large. This catalogue lists approximately 1,250 publications grouped by subject areas, and designed to include the statistical information for each area which is most commonly used. It is obviously impossible to publish compilations which will serve every purpose or need. Therefore, users should keep in mind that a considerable volume of unpublished information is available from DBS on request.

Publications

Au sein du système statistique canadien, le B.F.S. a pour fonction de publier la statistique de toute la gamme de l'activité économique et sociale au Canada. Son catalogue contient environ 1,250 titres de publications groupées par sujet et destinées à fournir des renseignements statistiques sur chacun des domaines où l'information est le plus en demande. Il est évidemment impossible de publier des statistiques qui répondent à absolument tous les besoins. Les utilisateurs se rappelleront donc qu'il existe une masse de renseignements non publiés qu'ils peuvent obtenir en s'adressant au B.F.S.

Data Files and Unpublished Information

In addition to providing regular information on the publications program, this catalogue contains a section on data files and unpublished information. The descriptions provided are in sufficient detail in most cases for the placing of orders. Included with the description for each subject area is the title of the officer or the name of the section to contact for further information. If in doubt, you should contact the Inquiries Section, DBS, telephone 992-2959, area code 613. Like all information from DBS, data files are subject to the clauses of the Statistics Act which protect organizations and persons from individual disclosure.

Fichiers de données et classements spéciaux

Outre les renseignements ordinaires sur le programme de publications, le présent catalogue contient une section consacrée aux fichiers de données et aux renseignements non publiés. Les descriptions sont assez détaillées pour que l'on puisse passer des commandes, dans la plupart des cas. Elles s'accompagnent du titre du fonctionnaire ou du nom de la section à qui l'on peut s'adresser pour de plus amples renseignements dans chaque domaine particulier. Dans le doute, on doit se mettre en rapport avec la Section des renseignements, B.F.S., numéro de téléphone 992-2959, indicatif régional 613. Comme tous les renseignements du B.F.S., les fichiers de données sont assujettis aux dispositions de la Loi sur la statistique, qui protège les organismes et les particuliers contre la divulgation de renseignements individuels.

For further details on the availability of data files and unpublished information, please refer to Part II of this catalogue. See page 305.

L'introduction à la 2e partie du présent catalogue donne des détails sur la façon d'obtenir des fichiers de données ou des renseignements non publiés. (Voir page 305.)

Local Access to DBS Publications

DBS has 8 regional offices located in St. John's, Halifax, Montreal, Ottawa, Toronto, Winnipeg, Edmonton and Vancouver, and each of them (with the exception of Ottawa which is served by the headquarters Inquiries Section) keeps on the premises a file of current publications available for public use. Also, DBS publications are generally available at libraries including the National Library, provincial legislature libraries, major public libraries and university libraries. The DBS library in Ottawa contains a complete collection of all Bureau publications issued since the Bureau was founded in 1918. A catalogue of this collection is available. See listing for catalogue number 11-504.

How to Use this Catalogue

For the seasoned user of DBS information, the table of contents beginning on page 3 will lead him to the statistics he wants. For the non-expert however, the title, subject, and commodity index beginning on page 333 will usually be helpful. It contains several thousand entries arranged in alphabetical order and is cross-referenced to show the several publications (if such is the case) in which information on a given subject may be found.

Concerning the catalogue numbering system, it will help to know that:

- (1) the first digit of the number indicates the major group (manufacturing, transportation, etc.);
- (2) the second digit indicates the subgroup of the major group; for example, under manufacturing, textiles and apparel, wood products;
- (3) the third digit indicates the frequency of publication, such as occasional, annual or more than once a year;
- (4) the fourth and fifth digits are permanent numbers for each publication.

Accès aux publications du B.F.S.

Le B.F.S. a huit bureaux régionaux, qui sont situés à Saint-Jean (T.-N.), à Halifax, à Montréal, à Ottawa, à Toronto, à Winnipeg, à Edmonton et à Vancouver, et chacun d'eux (sauf celui d'Ottawa, qui est desservi par la Section des renseignements du bureau central) conserve un fichier des publications courantes que le public peut consulter sur place. De plus, on peut généralement trouver les publications du B.F.S. à la Bibliothèque nationale, dans les bibliothèques des assemblées législatives des provinces, dans les grandes bibliothèques publiques et dans les bibliothèques universitaires. La bibliothèque du B.F.S. à Ottawa possède la collection complète de tous les ouvrages publiés par le Bureau depuis sa fondation en 1918. On peut se procurer le catalogue de cette collection, qui porte le numéro de catalogue 11-504.

Comment se servir du catalogue

Celui qui utilise souvent les renseignements du B.F.S. pourra trouver les publications statistiques qu'il désire en consultant la table des matières à la page 3. Quant au non-initié, l'index des titres, des sujets et des produits qui commence à la page 471 pourra lui être utile. Il contient plusieurs milliers d'inscriptions disposées par ordre alphabétique, avec des renvois indiquant les publications où l'on peut trouver des renseignements sur un sujet donné.

Pour ce qui est de la numérotation du catalogue, il convient de signaler que:

- 1) le premier chiffre du numéro indique le grand groupe (fabrication, transports, etc.);
- 2) le deuxième chiffre représente le sous-groupe, par exemple sous fabrication; textiles et vêtements, articles en bois;
- 3) le troisième chiffre marque la fréquence des publications: hors série, annuelles ou publiées plus d'une fois par année;
- 4) les quatrième et cinquième chiffres sont des numéros permanents, propres à chaque publication.

How to Order Publications

When ordering DBS publications please keep in mind the following points:

- (1) Send your order to Publications Distribution, Dominion Bureau of Statistics, Ottawa.
- (2) Please quote the catalogue number as well as the publication title when ordering.
- (3) Please enclose payment with your order. Cheques or money orders should be made payable to the Receiver General of Canada. (For your convenience, arrangements can be made through DBS Publications Distribution to open a deposit account with Information Canada. You may deposit an amount sufficient to cover approximately three month's requirements (a minimum of \$10) against which publications can be ordered in future.
- (4) You can order the full publications service (\$525 per year) and receive all DBS publications automatically as soon as they are issued.
- (5) If you find it more convenient, DBS publications may also be ordered from Information Canada bookstores in the following cities: Halifax, Montreal, Ottawa, Toronto, Winnipeg, Vancouver.
- (6) Discounts are allowed under certain conditions, the main ones being on sales to Federal Government Departments, to independent retailers, to libraries and on bulk orders of 1,000 copies or more. For details, please get in touch with Publications Distribution DBS.

How to Make Inquiries

If you are aware of the section of the Bureau to which a specific inquiry should be addressed, by all means so address it. If not, your best course is to send it to In-

Commandes de publications

Dans toute commande de publications du B.F.S., veuillez suivre les indications suivantes:

- 1) Adressez la commande à la Diffusion des publications, Bureau fédéral de la statistique, Ottawa.
- 2) Indiquez le numéro de catalogue ainsi que le titre de la publication.
- 3) Envoyez le paiement avec la commande. Les chèques et les mandats se font à l'ordre du Receveur général du Canada. (Pour faciliter les choses, la Diffusion des publications peut vous ouvrir un compte auprès d'Information Canada. Vous y déposez un montant suffisant pour prévoir approximativement vos besoins pour trois mois (minimum de \$10), duquel est déduit le prix des publications commandées par la suite.
- 4) Vous pouvez vous abonner au service complet des publications (moyennant \$525 par an) et recevoir automatiquement toutes les publications du B.F.S. dès leur parution.
- 5) Pour plus de commodité, on peut également commander les publications du B.F.S. aux librairies d'Information Canada dans l'une ou l'autre des villes suivantes: Halifax, Montréal, Ottawa, Toronto, Winnipeg, Vancouver.
- 6) Des remises sont consenties dans certains cas, notamment aux ministères de l'État, aux détaillants indépendants, aux bibliothèques et sur les commandes de 1,000 exemplaires ou plus. Pour plus de détails, veuillez communiquer avec la Diffusion des publications, B.F.S.

Demandes de renseignements

Si vous savez quelle section du Bureau peut vous fournir des renseignements particuliers, adressez-vous à elle. Sinon, le mieux est d'envoyer votre demande de

quiries Section, Dominion Bureau of Statistics, Ottawa (telephone 992-2959, area code 613).

If you wish to telephone DBS for information and are using long distance, it is obviously best if you can contact the appropriate DBS section with your first call. The Inquiries Directory on page 11 contains the DBS telephone numbers most commonly used by the public. Because the names of officers who answer inquiries in the various DBS divisions sometimes change, the names are not included, and the telephone numbers have been listed by the most common headings and subheadings of subjects to be dealt with. If in doubt about whom you should call, please contact the Inquiries Section.

Si vous communiquez avec le B.F.S. par l'interurbain, il est évidemment préférable que votre premier appel vous mette en communication avec la section du Bureau qui vous sera utile. Le Répertoire des services de renseignements reproduit ci-dessous renferme les numéros de téléphone les plus couramment utilisés par le public. Vu que les noms des fonctionnaires qui répondent aux demandes dans les différentes divisions sont sujets à modification, ils ne figurent pas dans le Répertoire et les numéros de téléphone sont inscrits selon les titres et les sous-titres des sujets le plus couramment traités. Si vous n'êtes pas certain de savoir qui appeler, veuillez communiquer avec la Section des renseignements.

CANSIM

CANSIM – Canadian Socio-Economic Information Management System is a fully computerized time series “data bank” containing current and historical information for the most widely used economic statistics of Canada. Because it is a long-term project, data (time series) will be stored and made available from this data bank in an increasing volume. When fully developed, the system will provide machine-readable data from a large base, possibly encompassing the total output of published statistics from DBS and other data sources.

Le CANSIM (système canadien d’informatique socio-économique) est une “banque de données” entièrement automatisée contenant les séries chronologiques et courantes les plus en demande en matière de statistique économique au Canada. Comme il s’agit d’un programme à long terme, les données (séries chronologiques) que l’on pourra ainsi stocker et extraire à volonté seront de plus en plus nombreuses. Lorsque le système aura atteint sa forme définitive, il fournira des données lisibles par une machine à partir d’une vaste base de données qui pourra englober la totalité des statistiques publiées du B.F.S. ainsi que des statistiques provenant d’autres sources.

12-530 CANSIM: Operational Manual for Data Entry. E. and F. 60 pp.

This manual will be of practical interest only to federal government agencies which store and maintain time series in the CANSIM data base. Users desiring a fuller knowledge of the codes used and the storage methodology will find this volume a useful companion to the “Retrieval Manual” (12-531). \$1

12-530F CANSIM: Manuel d’entrée des données du système CANSIM. A. et F. 60 pages.

Ce manuel n’offre un intérêt pratique que pour les organismes du gouvernement fédéral qui se servent du système CANSIM pour le stockage et la tenue à jour de leurs séries chronologiques. Les utilisateurs désirant se familiariser avec les codes employés et les méthodes de stockage des données trouveront en ce manuel un complément utile au “Manuel d’extraction” (12-531F). \$1

12-531 CANSIM: Users’ Manual for Data Retrieval and Manipulation. E and F.

Gives detailed instructions on procedures for obtaining data on magnetic tape from the CANSIM data base. The initial very rudimentary retrieval package described will be enlarged and improved; the manual will be expanded and modified accordingly. Existing *commands* will, however, continue to be supported. \$1.50

12-531F CANSIM: Manuel d’extraction et de manipulation des données. A. et F.

Ce manuel donne tous les détails sur les démarches à accomplir pour obtenir sur bande magnétique la restriction des données de la base CANSIM. Les premières possibilités, encore très rudimentaires, de restitution décrite dans le manuel seront augmentées et perfectionnées et le manuel sera révisé en conséquence. Les opérations existantes resteront toutefois toujours valables.

- 24-501 Survey of the Canadian Sea Fishing Industry, 1965. Bil. 12 pp.
- First undertaking to collect establishment statistics for the fishing industry. Statistics consistent with the Standard Industrial Classification and establishment concept are presented. As fishing is not a manufacturing industry the description of the principal statistics had to be somewhat modified to meet conditions peculiar to the industry. In addition to basic industry statistics data such as capital investment are also presented. 50c
- 24-501 Enquête sur l'industrie de la pêche en mer au Canada, 1965. Bilingue. 12 pages.
- Premier recueil de renseignements statistiques sur les établissements de l'industrie de la pêche. Les statistiques y sont présentées sur la base de la Classification type des industries et de la notion de l'établissement. Comme la pêche n'est pas une industrie manufacturière, il a fallu modifier légèrement la formulation des statistiques principales pour tenir compte des conditions particulières de cette industrie. Outre les statistiques de base, on y trouve des données sur les immobilisations. 50c

3: MANUFACTURING – FABRICATION

Description of Reports

Publications listed under “Manufacturing” relate to Division 5 of the *Standard Industrial Classification*.

These publications consist of a large number of reports, some of which provide summarized and analytical information for manufacturing as a whole and others which provide detailed information on individual manufacturing industries or on various commodities.

Although titles of the various reports are broadly indicative of the subject matter covered, explanatory notes have been included under title headings where necessary. Such notes are generally restricted to reports dealing with the manufacturing industries as a whole (sub-group 31) and to those publications dealing with commodities. The reports on individual industries are generally similar to each other in character and include such principal statistics as: number of establishments, number and type of employees and their salaries and wages, cost of fuel and electricity, value of shipments of goods of own manufacture, and value added. Comparative statistics are given for Canada for earlier years and for the preceding year for provinces. Also shown are the value and, where applicable, quantities of major products shipped and purchased materials used by establishments classified to the industry. Some reports also show total manufacturers’ shipments of relevant commodities without regard to industry of origin, but this is given comprehensively for all commodities in an annual report on products shipped by Canadian manufacturers.

Description des bulletins

Les publications classées sous “Manufactures” se rapportent à la branche 5 de la *Classification type des industries*.

Le nombre de ces bulletins est élevé. Certains présentent des renseignements résumés et analytiques sur l’industrie manufacturière dans son ensemble, tandis que d’autres fournissent des statistiques détaillées sur une industrie donnée ou sur divers produits.

Bien que les titres soient suffisamment explicites quant au contenu des bulletins, des notes explicatives ont été ajoutées sous le titre, partout où cela a été jugé nécessaire. En général, on a réservé ces notes aux bulletins qui traitent de l’industrie manufacturière dans son ensemble (sous-groupe 31) ou qui portent sur les produits. Les bulletins qui traitent d’industries individuelles sont en général présentés selon un schéma commun et comprennent des renseignements que l’on retrouve d’un bulletin à l’autre: nombre d’établissements, effectif, catégorie et rémunération des employés, coût du combustible et de l’électricité, valeur des expéditions des marchandises produites dans les fabriques, valeur ajoutée. Des données comparatives sont indiquées, pour les années antérieures en ce qui concerne le Canada et pour l’année précédente en ce qui concerne les provinces. Les bulletins donnent également la valeur et, dans la mesure du possible, les quantités des principaux produits expédiés et des matières achetées par les établissements faisant partie de l’industrie décrite. Quelques bulletins donnent également le total des expéditions de produits généralement fabriqués par l’industrie en question, y compris celles des établissements classés dans d’autres industries et qui, à titre d’activité secondaire, fabriquent ces produits. Ces données sont présentées de façon complète, pour tous les produits, dans un bulletin annuel sur les produits expédiés par les fabricants canadiens.

Primarily due to the fact that annual surveys cannot be initiated until the end of the calendar year and to the time required to collect, edit and compile extensive data, most annual industry reports are not available until a year or more after the end of the year of survey. However, two-page preliminary bulletins providing data on shipments of goods of own manufacture and on principal statistics by province are issued to subscribers as soon as the statistics on individual industries are compiled, expediting their availability to users considerably. Other preliminary bulletins are also published relating to manufacturing as a whole.

In addition there are a large number of publications which are published more frequently than once a year and which contain current information on commodities (generally shipments, production or consumption). Although not exactly suitable to industry analyses, except in the case of one-industry commodities, they have proven to be most useful in commodity analyses and as an approximation of industry trends.

Parce que les enquêtes annuelles ne peuvent être menées avant la fin de l'année civile et aussi parce qu'il faut beaucoup de temps pour recueillir, contrôler et compiler la masse considérable de données, la plupart des bulletins ne sont publiés que dans un délai d'un an ou plus après la fin de l'année de l'enquête. Cependant, des bulletins préliminaires in-folio, contenant les expéditions des marchandises produites dans les fabriques et les principales statistiques, par province, sont envoyés aux abonnés aussitôt que les données sur les industries individuelles ont été élaborées. D'autres bulletins provisoires portent sur l'activité manufacturière dans son ensemble.

Il existe, en outre, un grand nombre de publications qui paraissent plus d'une fois par année et qui présentent des statistiques courantes sur les produits (expéditions, production ou consommation). Ces publications, quoique ne convenant pas à l'analyse globale d'une industrie donnée, sauf dans le cas de produits fabriqués par une seule industrie, se sont révélées fort utiles à ceux qui s'attachent à l'analyse des produits eux-mêmes et à ceux qui veulent connaître la tendance générale d'une industrie.

Change in employment for each industry in a census division is compared with the national growth rate for all industries, and this difference is resolved into two components: that attributable to the particular industry's growth rate (industry mix) and the residual change (regional share). Includes an explanation of concepts and methods used. \$1.50

- 31-503 **La croissance de l'emploi dans les industries manufacturières par comtés et par divisions de recensement, 1949-1959 et 1961-1965.** Bilingue. 146 pages.

Analyse des variations de l'emploi dans les industries manufacturières au moyen des facteurs "composition industrielle" et "conditions régionales". La variation de l'emploi dans chaque industrie d'une division de recensement donnée est comparée au taux de croissance de l'ensemble des industries du pays et l'écart est décomposé en deux éléments: la partie attribuable au taux de croissance de l'industrie en cause (composition industrielle) et la variation résiduelle (conditions régionales). Avec explication de la terminologie et des méthodes utilisées. \$1.50

Reports in the Operating Results series (63-401 to 63-413 and 63-424 to 63-428, inclusive) contain ratios of gross profit (percentage of net sales), operating expense items and net profit, as well as averages of sales and inventories and information on turnover. All of the most significant retail trades are covered in a three-year cycle. Beginning with 1963 the food trades were surveyed. General merchandise stores, apparel and dry goods stores, hardware stores and appliance stores were surveyed for 1964. Remaining trades were surveyed for 1965. A new cycle began with food stores being surveyed for 1966, but the series was suspended during 1967-70. Some bulletins of the former series of retail operating results are still available.

CENSUS PUBLICATIONS 1961

Final results of Canada's Tenth Decennial Census of 1961 were issued in the form of individual reports, comprising four main series, as follows:

- (1) **Advance Series.** — These reports provide summary information on specified basic topics for which there is wide demand, and were published earlier than the regular series of volume reports.
- (2) **Volume Series.** — Reports in this series represent the main results of the 1961 Census, and are prepared in such a way that the user can combine the contents to form the subject matter of each volume of the 1961 Census. A hard-covered binder, suitably titled, is supplied to those ordering at one time the complete set of reports for any given volume part.
- (3) **Special Series.** — This series contains some basic materials not included in the regular Volume Series, and which relate for the most part to more detailed geographical areas.
- (4) **Census Tract Series.** — Basic population and housing data are issued for each of the larger cities (or metropolitan areas) according to census tracts (i.e., areas of approximate uniformity in population size and composition).

PUBLICATIONS DU RECENSEMENT DE 1961

Les résultats définitifs du dixième recensement décennal du Canada de 1961 sont publiés sous forme de rapports individuels formant quatre séries principales, que voici:

- (1) **Série anticipée.** — Ces rapports donnent des renseignements sommaires sur certaines données fondamentales très en demande; ils sont publiés plus tôt que la série régulière des rapports en volumes.
- (2) **Série des volumes.** — Les rapports de cette série donnent les principaux résultats du recensement de 1961 et se présentent de telle sorte que l'utilisateur peut les réunir et ainsi constituer la matière de chaque volume du recensement de 1961. Un auto-relieur à couverture rigide et portant le titre approprié est fourni à ceux qui achètent la série complète des rapports devant constituer un volume.
- (3) **Série spéciale.** — La série contient des données fondamentales qui ne paraissent pas dans la série régulière des volumes et qui ont trait pour la plupart à des régions géographiques plus détaillées.
- (4) **Série des secteurs de recensement.** — Des données de base sur la population et l'habitation sont publiées pour chacune des grandes villes (ou zones métropolitaines) par secteur de recensement (i.e., étendues à peu près uniformes quant à la taille et la composition de la population).

Census Tract Series***Série des secteurs de recensement***

Individual reports in the 1961 Census Tract Series present basic population, housing, and labour force characteristics for statistical areas (i.e., census tracts) delineated within 23 of the larger urban communities and metropolitan areas. Each report contains an index map outlining the locations of these census tracts within the particular city or metropolitan area. (See also Catalogue No. 92-537 in the Volume I series.) In addition, the Census Tract Series includes composite reports for all cities dealing with: (1) the Population Sample; and (2) the Census of Merchandising.

Les rapports de la série des secteurs de recensement présentent des données de base sur la population, l'habitation et la main-d'oeuvre pour les régions statistiques (i.e., secteurs de recensement) délimitées dans 23 des grandes agglomérations urbaines et zones métropolitaines. Chaque rapport contient une carte qui indique la situation de ces secteurs dans la ville ou la région métropolitaine. (Voir aussi le n^o 92-537 au Catalogue dans la série du volume I.) En outre, la série des secteurs de recensement comprend des rapports globaux pour toutes les villes et traitant 1) de l'échantillon de la population, et 2) du recensement du commerce et des services.

1961 Census Monographs Monographies sur le recensement de 1961

- 99-541F **Tendances et Facteurs de la Fécondité au Canada**, par Jacques Henripin. 425 pages.

Une analyse de la fécondité basée sur l'exploitation des recensements et des statistiques de l'état civil du Canada, du XVII^e siècle à nos jours. Cette monographie: sonde l'évolution passée de la fécondité en se rapportant plus particulièrement aux tendances historiques de certains facteurs qui ont influé sur la fécondité: distribution par âge, nuptialité, fécondité légitime et fécondité illégitime; étudie les variations de la fécondité en fonction de certains phénomènes depuis longtemps associés à la fécondité: habitat, âge au mariage, pays de naissance, origine ethnique, langue maternelle, religion, profession du mari, niveau d'instruction, revenu et travail de la femme; examine certains aspects particuliers de la fécondité: intervalles entre naissances, rang de naissance et fécondité illégitime. Les appendices contiennent des notes techniques décrivant divers procédés d'évaluation et d'estimation de même que des remarques sur la valeur de l'échantillon. \$4.50

- 99-542 **Urban Development in Canada**, by Leroy O. Stone. 300 pp.

A study of the urban population in Canada 1871 to 1961, describing and analysing its growth, geographical distribution and sex-age composition. Discusses some demographic aspects of metropolitan growth in Canada, and describes the increasing concentration of the Canadian population into the principal areas of metropolitan development. Reviews indicators of major historical trends and selected aspects of sex-age composition and features of the age profile of net migration ratios for census metropolitan areas, and some larger cities. The appendices contain detailed definitions of concepts and technical notes describing various data processing and estimating procedures. \$3

- 99-543 **Trends in Canadian Marketing**, by M.S. Moyer and G. Snyder. 320 pp.

An in-depth study of marketing, covering primarily the period from 1930 to 1964. Discusses changes in such functions as buying, selling, transportation, storage, standardization and grading, etc. Describes the evolution of such institutions as department stores, corporate and voluntary chain stores, shopping centres, independent stores, etc. Comprehensive appendices describe the methods and techniques employed in deriving the data used throughout the monograph. \$4

- 99-544 **Incomes of Canadians**, by Jenny R. Podoluk. 356 pp.

Analyzes various aspects of the income distribution in Canada, using income data collected from non-farm households on the 1961 Census of Canada and on the Surveys of Consumer Finances conducted for inter-censal years. Discusses the sources of incomes of the adult population, the relationship between earnings and characteristics of the labour force such as occupation, sex and education, and the private rates of return to education. The structure of family income is examined by the family life cycle and family composition. Discusses regional income disparities and factors associated with them and, at the national level, the low income population and the incidence of low income by various family characteristics. One chapter is devoted to an income profile of the aged who constitute a significant proportion of the low income population. Changes in the income distribution in real terms and trends in income inequality between 1951 and 1961 are summarized. The appendix outlines sources and methods, the relationship of the estimates to the personal income in the National Accounts and comments on the reliability of the estimates. \$3

- 99-546 **The Impact of Immigration on Canada's Population**, by Warren E. Kalbach. 465 pp.

Examines post-war immigration in its historical context, i.e., as a continuation of trends in the foreign-born population resulting from variations in the size as well as character of immigration throughout both pre-World War II and post-war periods. Growth and distribution in relation to Canada's population is illustrated by analysing the age and sex structure, ethnic composition and population mobility. The resemblance of native-born population and pre-war immigrants in relation to their demographic contribution is examined. Political identification and integration is covered at a very elementary level by means of the citizenship status of post-war immigrants who had been resident in Canada for a sufficient period of time to attain eligibility. \$3.75

- 99-548 **Migration in Canada, Regional Aspects**, by Leroy O. Stone. 407 pp.

Describes and analyses some of the major patterns of migration in Canada, provides a focus on regional differentials in migration flow, and studies measures of migration rates for provinces, urban areas, metropolitan areas and counties and census divisions. A major purpose of this volume is to provide a treatment of migration in Canada which brings out specific patterns and associations relevant to the role of migration in regional development. The general theme of this work can be said to be the regional patterns and socio-economic aspects of migration in Canada. This monograph is based mainly on census statistics, particularly those from the 1961 Census of Canada. \$3

- 99-549 **Historical Estimates of the Canadian Labour Force**, by Frank T. Denton and Sylvia Ostry. E. and F. 50 pp.

Estimates of labour force by age and sex from 1921, by sex 1901 and 1911, total from 1851 - 1891, on a conceptually consistent basis utilizing decennial census and monthly survey data. Includes full discussion of concepts of the economically active population. 75¢

- 99-549F **Relevés chronologiques de la main-d'oeuvre canadienne**, par Frank T. Denton et Sylvia Ostry. A. et F. 50 pages.

Relevés de la main-d'oeuvre selon l'âge et le sexe depuis 1921, selon le sexe en 1901 et 1911, total de 1851 à 1891, à base de concepts uniformes et à partir des données des recensements décennaux et des enquêtes mensuelles. Cette publication comprend de plus un examen approfondi des concepts de la population économiquement active. 75¢

- 99-550 **The Occupational Composition of the Canadian Labour Force**, by Sylvia Ostry. 92 pp.

An analysis of long-run changes in the development of the working population in Canada among the major occupation groups. Includes an exposition of the main structural changes within occupations. \$1

- 99-551 **Provincial Differences in Labour Force Participation**, by Sylvia Ostry. E. and F. 40 pp.

An analysis of the extent and nature of interprovincial variation in labour force participation rates, focussing on the distinction between structural and behavioural effects. 75¢

- 99-551F **Différences provinciales du taux d'activité**, par Sylvia Ostry. A. et F. 40 pages.
Analyse des taux de participation de la main-d'oeuvre quant à l'importance et à la nature des variations d'une province à l'autre, centrée sur la différence des effets sur la structure et le comportement. 75¢
- 99-552 **Unemployment in Canada**, by Sylvia Ostry. 86 pp.
A full examination of the profile of unemployment in Canada. Includes an analysis of underemployment, family patterns of joblessness and the relation between unemployment and income loss. \$1
- 99-553 **The Female Worker in Canada**, by Sylvia Ostry. 63 pp.
An exposition of changing trends in the labour force activity of women over recent decades and of the main factors influencing these developments. Includes a discussion of male-female differentials in annual earnings and some Canada-United States comparisons. \$1
- 99-554 **Geographic Composition of the Canadian Labour Force**, by Sylvia Ostry. 42 pp.
Examines the provincial distribution of the labour force and its major components, and the extent and nature of structural changes in the occupational and industrial deployment of manpower within the provinces in relation to the national pattern of activity. 75¢
- 99-555 **Working-life Tables for Canadian Males**, by Frank T. Denton and Sylvia Ostry. 56 pp.
Presents for the first time estimated tables of working life for males in Canada. Tables have been compiled for Canada at each of the decennial census dates from 1921 to 1961 with separate tables for 1961 for the five geographical regions. 75¢
- 99-556 **The Growth of Manpower in Canada**, by Frank T. Denton. 83 pp.
Examines the growth of the population and labour force since the middle of the nineteenth century. The contributions of internal migration and changes in birth and death rates are considered. Attention is paid to important changes in the composition of the population and the labour force which are related to growth, including changes in age structures, male-female ratios, rural-urban and farm, non-farm shares, the labour force participation of men and women, and regional or provincial distributions. 75¢
- 99-557 **Internal Migration in Canada, Demographic Analyses**, by M.V. George. 249 pp.
Measures and describes the types, volume, trends, streams and patterns of internal migration in Canada, with special emphasis on interprovincial movement. Analyses the interrelations of population growth with internal migration, and lays a basis for further exploration of the demographic, economic and social effects of migration within Canada. Based on census data from 1931 through 1961, including estimates of migration based on birth-residence data. Complements "Migration in Canada: Some Regional Aspects" (Catalogue No. 99-548). \$2

CENSUS PUBLICATIONS

1966

(Agriculture and Population)

Final results of the 1966 Census of Canada relating to Population and Agriculture were issued in the form of individual reports as the information become available. The reports are in four series, as follows:

- (1) **Advance Series.** — These reports provide advance summary information on specified basic topics.
- (2) **Volume Series.** — Reports in this main series are so prepared that they can be combined to form the contents of each of five census volumes. A titled cover binder is supplied with orders for the complete set of reports for a given volume.
- (3) **Census Tract Series.** — Basic population data are issued for each of the larger centres (or metropolitan areas) according to these intracity statistical areas which have been delineated for cities of over 50,000.
- (4) **Special Series.** — Reports in this series contain specified materials not included in any of the foregoing series.

PUBLICATIONS DU RECENSEMENT DE 1966

(Agriculture et population)

Les résultats définitifs du recensement du Canada de 1966, pour ce qui est de la population et de l'agriculture, ont été publiés sous forme de rapports distincts à mesure que les renseignements sont devenus disponibles. Ces rapports se répartissent en quatre séries principales, comme il suit:

- (1) **Série anticipée.** — Ces rapports donnent, sous une forme concise, des renseignements anticipés sur certains sujets fondamentaux.
- (2) **Série des volumes.** — Les rapports qui composent cette série principale sont présentés de manière que, réunis, ils forment le contenu de chacun des cinq volumes du recensement. On fournit, avec chaque commande d'une série complète formant un volume, un auto-relieur titré.
- (3) **Série des secteurs de recensement.** — Cette série comprend les données sur la population de chaque grande agglomération (ou zone métropolitaine) fondées sur les secteurs statistiques délimités aux fins du recensement dans chaque ville de plus de 50,000 habitants.
- (4) **Série spéciale.** — Les rapports de cette série contiennent des données particulières qui ne sont publiées dans aucune des séries susmentionnées.

Census Tract Series

Individual reports in this series present basic population, household and family characteristics for statistical areas (i.e., census tracts) within 28 of the larger urban centres and metropolitan areas. Each report contains an index map outlining the locations of the census tracts for that particular centre. (See also Catalogue No. 92-615 in the Volume I Series.)

Série des Secteurs de Recensement

Les rapports de cette série présentent des données de base sur la population, les ménages et les familles à l'égard de secteurs statistiques (c'est-à-dire les secteurs de recensement) établis dans 28 grandes agglomérations urbaines et zones métropolitaines. Chaque rapport comporte une carte où sont indiqués les secteurs de recensement de l'agglomération en cause. (Voir aussi le rapport numéro 92-615, volume I.)

1966 Census Publications (Merchandising and Service Establishments)

Final results of the 1966 Census of Canada relating to merchandising and service establishments were issued in three series of reports as follows:

- (1) **Advance Series.** — These reports provide advance summary information on specified basic topics.
- (2) **Volume Series.** — Reports in this main series are so prepared that they can be combined to form the contents of each of three census volumes. A titled cover binder is supplied with orders for the complete set of reports for a given volume.
- (3) **Census Tract Series.** — Basic data are issued for each of the metropolitan areas according to these intracity statistical areas.

Publications du Recensement de 1966 (Établissements de commerce et de services, 1966)

Les résultats définitifs du recensement du Canada de 1966, pour ce qui est des établissements de commerce et de services, ont été publiés en trois séries principales de rapports, comme il suit:

- (1) **Série anticipée.** — Ces rapports donnent, sous une forme concise, des renseignements anticipés sur certains sujets fondamentaux.
- (2) **Série des volumes.** — Les rapports qui composent cette série principale sont présentés de manière que, réunis, ils forment le contenu de chacun des cinq volumes du recensement. On fournit, avec chaque commande d'une série complète formant un volume, un auto-relieur titré.
- (3) **Série des secteurs de recensement.** — Cette série comprend des données de base sur chaque zone métropolitaine, suivant les secteurs statistiques.

PART II

Data Files and Unpublished Information

Part II of this catalogue consists of two main elements, data files and information apart from data files which is generally described as unpublished information. This latter is information which may be useful to a limited number of individuals or organizations, but which is not published because the interest in it is not considered to be sufficiently broad.

Data files include summary tapes and punch card decks. In cases where costs are not indicated, estimates of cost will be provided before the work is undertaken. The charge for punch card decks is basically \$3 per thousand plus an additional \$2 per thousand on the number interpreted.

Unpublished information includes special tabulations, copies of special statements, computer print-outs, and so on. Like all information issued by DBS, however, unpublished information is subject to the limitations of the Statistics Act which prevent the disclosure of information on individual persons or companies. In instances where the request can be met without a considerable amount of time and effort involved, there is no charge. In cases where the work to be done is substantial, or a special tabulation is needed, a charge may be made, but in most cases it is not large. In cases where charges are not specified in this catalogue, an estimate of cost will be provided before the work is undertaken.

Some unpublished non-statistical information, technical papers and maps such as census maps are also available.

Your dealings in all cases would be with the director of the subject area division which produces the information you are interested in. The directors' titles and addresses are provided at the end of each description of the material.

PARTIE II

Documents mécanographiques et renseignements non publiés

La Partie II du présent catalogue concerne d'une part les documents mécanographiques, d'autre part les renseignements non ordinairement publiés sous forme d'imprimés. Il s'agit de renseignements qui peuvent servir à un nombre restreint de particuliers ou d'organismes, mais qui ne sont pas imprimés parce que le nombre des utilisateurs n'est pas jugé suffisant.

Les documents mécanographiques se composent de bandes récapitulatives et de jeux de cartes perforées. Dans les cas où le prix n'est pas indiqué, on fournira une estimation du coût avant d'entreprendre les travaux. Le prix de base des jeux de cartes perforées est de \$3.00 les 1,000 cartes, prix auquel il faut ajouter \$2.00 suivant le nombre de données interprétées.

Les renseignements non publiés se présentent sous forme de tableaux spéciaux, de reproductions d'états spéciaux, d'états mécanographiques, etc. Comme toute l'information publiée par le B.F.S., toutefois, les renseignements non imprimés sont assujettis aux restrictions de la loi sur la statistique qui défend de divulguer des données individuelles concernant les particuliers ou les sociétés. Si la réponse à une demande de renseignements n'exige pas trop de temps et de travail, elle est donnée gratuitement. Si elle exige beaucoup de travail ou une mise en tableau spéciale on mettra les frais en compte, mais dans la plupart des cas ces frais ne seront pas élevés. Dans les cas où le présent catalogue ne mentionne pas les frais, on fera connaître au client le prix estimatif avant d'entreprendre le travail.

Des renseignements non imprimés de nature non statistique, des documents techniques et des cartes de recensement et d'autres cartes géographiques semblables sont également disponibles.

Dans tous les cas, on voudra bien s'adresser au directeur de la division dont relèvent les renseignements désirés. La fonction et l'adresse des directeurs figureront à la fin de la description du document.

CENSUS

Computer print-outs and summary tapes containing basic data from the 1961 and 1966 Censuses for enumeration areas are available. An enumeration area is defined as the area covered by one enumerator and generally ranges in size from 200 to 800 population. Since they are mainly administrative units, their numbers, size, and boundaries vary from census to census. Moreover, census statistics on this basis require extreme caution in their interpretation; statements on the quality of the data are available on request. Available data cover population, household, family and labour force distributions for the 1961 Census and population, household and family for the 1966 Census.

Printed descriptions of the boundaries of the enumeration areas of the 1961 and 1966 Censuses can be ordered at the unit price of 50c for all enumeration areas per electoral district, or \$100 for the complete set of some 30,000 areas (1961) and 36,000 areas (1966) in the 263 electoral districts of Canada. These descriptions include statements of the total count of population and households for each enumeration area and will meet requirements where geographical distributions of population or households by small areas only are required.

For all rural parts of Canada, maps of electoral district series showing the enumeration area boundaries of the 1966 Census can be made available. For the larger urban centres (i.e. those which have been delineated into census tracts), individual maps are available for each census tract showing the enumeration area boundaries within that tract. Maps in either of these two series can be

RECENSEMENT

, Des états mécanographiques et des bandes récapitulatives qui contiennent les données de base des recensements de 1961 et de 1966 par secteur de dénombrement, sont disponibles. Le secteur de dénombrement est le secteur d'un agent recenseur, et il compte en général entre 200 et 800 habitants. Vu qu'il s'agit avant tout de divisions administratives, le nombre, la dimension et les limites des secteurs varient d'un recensement à l'autre. En outre, il faut interpréter avec une extrême prudence les données de recensement établies sur cette base; il existe des exposés sur la qualité des données, que l'on peut se procurer sur demande. Les données dont on dispose visent la population, les ménages, les familles et la répartition de la main-d'oeuvre au recensement de 1961, et la population, les ménages et les familles au recensement de 1966.

On peut commander, au prix de 50¢ l'exemplaire des descriptions imprimées des limites des secteurs de dénombrement aux recensements de 1961 et de 1966 pour tous les secteurs de dénombrement par district électoral, ou encore l'ensemble complet des descriptions des quelque 30,000 secteurs (1961) et 36,000 secteurs (1966) des 263 districts électoraux du Canada au prix de \$100. Elles comprennent une indication du nombre total d'habitants et de ménages par secteur de dénombrement, et répondront aux besoins dans les cas où l'on aura besoin de la répartition géographique de la population et des ménages par petits secteurs seulement.

Pour ce qui est des régions rurales du Canada, on peut se procurer les cartes des secteurs de dénombrement, de la série des districts électoraux pour le recensement de 1966. Quant aux grandes agglomérations urbaines (soit celles qui ont été réparties en districts de recensement) il existe des cartes de secteurs de dénombrement pour chaque district de recensement. On peut commander des cartes de l'une ou l'autre

ordered at the unit price of 50¢ per copy. For enumeration areas in the smaller cities and towns, not covered by these map series, the printed descriptions of boundaries are available only. Also, maps showing boundaries of enumeration areas are not available for the 1961 or earlier Censuses.

Computer Print-outs

Enumeration area data can be made available either from the 1961 Census or the 1966 Census on 14 sets of computer print-outs. Any one of the 14 sets can be ordered at the unit price of \$2 for all enumeration areas in a given electoral district (based on the 1952 re-distribution). If certain sets are in short supply, it may be necessary for some cases to provide "readable negatives".

Il n'y a pas de cartes de cette série dans le cas des secteurs de dénombrement des villes de moindre importance; seules les descriptions des limites peuvent être obtenues. De même, les cartes de dénombrement du recensement de 1961 et des recensements antérieurs, ne sont pas disponibles.

États mécanographiques

Le Bureau peut établir sous forme de 14 jeux d'états mécanographiques les données sur les secteurs de dénombrement du recensement de 1961 ou de celui de 1966. On peut se les procurer, au prix de \$2 chacun, pour tous les secteurs de dénombrement d'un district électoral donné (d'après la nouvelle répartition de 1952). Si certains étaient épuisés, il faudrait utiliser dans certains cas des «négatifs lisibles».

Commandes

Les commandes d'états mécanographiques doivent être adressées au directeur de la Division du recensement, Bureau fédéral de la statistique, Tunney's Pasture, Ottawa. Il faudrait autant que possible préciser dans les demandes les districts électoraux en cause. S'il s'agit de villes ou de régions métropolitaines particulières,

closest corresponding electoral districts will be sent. An invoice will be mailed to the purchaser at the time the order is filled. Remittance should be made by cheque or money order payable to the Receiver General of Canada. Direct accounts with Information Canada for printed publications cannot be used in payment for these special materials.

Computer Summary Tapes

Computer summary tapes at the enumeration area level contain the tabulated data of the different variables included in the main census tabulation program, generally without cross-classification of any kind except by sex, where applicable. These summary tape records cannot be used to produce tabulations additional to the distributions already appearing on the tapes. However they can be further processed by computer methods to: (a) produce totals for different types of geographical areas and for additional summarizations of variables by using the enumeration area distribution as "building blocks"; or (2) compute derived measures such as ratios and averages using the tabulated distributions where applicable.

Straight reproductions of existing enumeration area summary tape files of the 1961 and 1966 Censuses can be made available to users at cost, plus the provision of a sufficient number of blank reels of tape on which to reproduce the required files. One set of tape record descriptions is supplied with each reproduced tape file. A brief description of each of the tape files available from the 1961 and 1966 Censuses follows. File lengths are based on 9-track, 1,600 b.p.i., tape reels.

on enverra les données des districts électoraux s'en rapprochant le plus. La facture est envoyée à l'acheteur au moment où la commande est remplie. Le paiement se fait par chèque ou mandat au nom du Receveur général du Canada. Le prix de cette documentation spéciale ne peut être prélevé sur les provisions auprès d'Information Canada, destinées aux publications imprimées.

États récapitulatifs sur bande magnétique

Les états récapitulatifs sur bande magnétique par secteur de dénombrement, permettent d'obtenir, sous forme d'états mécanographiques, les différentes statistiques établies grâce au programme mécanographique du recensement. En général ces bandes ne donnent aucune classification recoupée, sauf celle par sexe, quand il y a lieu. Ces fichiers récapitulatifs sur bande ne permettent pas d'obtenir des tableaux autres que ceux qui sont prévus sur les bandes. Toutefois, les bandes peuvent être elles-mêmes taillées mécanographiquement et on aura ainsi: a) les totaux pour des types différents de régions géographiques ainsi que pour d'autres combinaisons de variables (en combinant les distributions par secteur de dénombrement); b) des renseignements dérivés comme les pourcentages et les moyennes à l'aide des distributions données dans les tableaux quand il y a lieu.

Les usagers peuvent obtenir à titre onéreux les reproductions directes des états récapitulatifs sur bande magnétique par secteur de dénombrement des fichiers des recensements de 1961 et de 1966, moyennant la fourniture d'un nombre suffisant de bobines vierges de bande magnétique pour enregistrer les renseignements demandés. Un jeu de bandes descriptives accompagne chaque fichier de bandes. Une brève description de chaque fichier de bandes fondé sur les recensements de 1961 et de 1966 figure ci-dessous. Ce sont des bandes à neuf pistes, portant, 1,600 bits au pouce.

Liste et description des fichiers d'états récapitulatifs par secteur de dénombrement, 1966

File Description

1. 602AAM-Z5n: Population

File is maintained by separate provinces, totalling some 12 reels in length. Consolidation of all provinces into one file reduces to approximately 5 reels. File contains 5-year age group (21) summary records further classified by marital status (4) by sex (2) by farm and non-farm (2), for a possible 16 sets of records per EA. In addition to 5-year age groups, the file contains the same cross-classified totals for: under 1; 18 and over; 21 and over; 100 and over.

2. 602AAM-Z1n: Population – Con.

File is maintained by separate provinces, totalling some 12 reels, consolidating into one file of approximately 6 reels. File contains single years of age (101) summary records by sex (2) by farm and non-farm (2), for a possible 4 sets of records per EA.

Fichier Description

1. 602AAM-Z5n: Population

Il existe un fichier séparé par province; l'ensemble de ces fichiers représente 12 bobines. La réunion des données de toutes les provinces en un seul fichier en réduit la longueur à environ 5 bobines. Ce fichier donne les états récapitulatifs par groupes d'âge quinquennaux (21) et, dans chacun de ces deux groupes, suivant: l'état matrimonial (4) le sexe (2) le caractère agricole ou non agricole (2), pour un maximum de 16 états par secteur de dénombrement. Outre les statistiques pour les groupes d'âges suivants: moins de 1; 18 et plus; 21 et plus; 100 et plus.

2. 602AAM-Z1n: Population – suite

Il existe un fichier séparé par province; l'ensemble représente 14 bobines, et la réunion de ces fichiers en un seul prend environ 5 bobines. Ce fichier donne les états récapitulatifs par âge, année par année, (101) selon le sexe (2) le caractère agricole ou non agricole (2), pour un maximum de 4 états par secteur de dénombrement.

3. 605AAA-PSA: *Households and families*

Approximately 3 reels containing all basic tabulations, with a summary farm record and a non-farm record for each EA. *Family* portion contains: families by No. of persons (10); families by No. of children (11); families by type of family (4); families by age of male heads (8); and of female heads (8); number of children by age (5).

Household portion contains: households by type (11); households by No. of persons (11); households by No. of lodgers (7); households by No. of families (5); households by type of dwelling (6); households by tenure (2); households by detailed types (30); households by No. of family persons (7); family households by No. of non-family persons (6); non-family households by No. of persons (5).

Note: The number of reels denotes approximately length of tape file for Canada as a whole. Figures in brackets indicate the number of variables, or fields, for a given characteristic. All summary tapes contain identification codes as to province, district, EA, county, municipality, MA, rural-urban, etc. Tape files are sorted in Province, District, and EA order.

Imports - Concordance between T.I. and B.T.N.

A set of two volumes has been prepared for domestic and international use.

The first volume consists of a complete print-out of a concordance from Canada Tariff Item via the Import Commodity Classification to the Standard International Trade Classification and thence to the Brussels Tariff Nomenclature. The second volume provides the same information, but is arranged in B.T.N. order.

It is up to date to 31/12/69 and available at \$35.00 Can. per set.

Imports or Exports - Special Studies

On request, special studies of import and export commodities can be undertaken to provide detail beyond that provided by the Commodity Classification, subject to the availability of appropriate descriptions on customs documents and also to the secrecy provisions of the Statistics Act. Studies are priced on a cost recovery basis in addition to a \$50 per class feasibility study charge.

Requests for additional information concerning these services should be directed to the Trade Information Section, External Trade Division, Dominion Bureau of Statistics, Tunney's Pasture, Ottawa, telephone 992-2848 or 992-8896, area code 613.

Importations - Concordance du T.D. avec la N.B.

Deux volumes ont été préparés à des fins nationales et internationales.

Le premier est un imprimé d'ordonnateur complet de la concordance du Tarif douanier du Canada, par l'intermédiaire de la Classification des marchandises d'importation et de la Classification type pour le commerce international, avec la Nomenclature de Bruxelles. Le second volume donne les mêmes renseignements dans l'ordre de la N.B.

A jour au 31 décembre 1969. Prix: \$35 (canadiens) pour les deux volumes.

Importations ou exportations - Études spéciales

On peut exécuter sur demande des études spéciales sur les marchandises d'importation et d'exportation, renfermant des renseignements plus détaillés que ceux qui figurent dans la Classification des marchandises, pourvu que les descriptions appropriées figurent dans les documents douaniers et que les dispositions de la Loi sur la statistique relatives au secret soient respectées. Ces études sont facturées au prix coûtant plus \$50 par classe, pour l'étude de faisabilité.

On peut obtenir de plus amples renseignements sur ces services en s'adressant à la Section de l'information commerciale, Division du commerce extérieur, Bureau fédéral de la statistique, Tunney's Pasture, Ottawa, au téléphone (613) 992-2848 ou 992-8896.

Special statistical information concerning transportation and public utilities is released in the transportation and communications service bulletins. Statistics are available from the Water Transport Unit on the origin and destination of both international and domestic cargoes loaded and unloaded at all unpublished ports. This information supplements similar statistics for the eight principal Canadian ports published in the "Shipping Report, Part IV, Origin and Destination for Selected Ports" (catalogue no. 54-206). Commodity origin and destination is also available for all unpublished material in similar format to that supplied in "Shipping Report, Part V, Origin and Destination for Selected Commodities" (Catalogue No. 54-207). Additional Water Transportation data are available on request from the Water Transport Unit, 8th Floor, General Purpose Bldg., Tunney's Pasture, Ottawa.

Other subject matter areas covered by the Division — Public Utilities, Rail and Road Transport have additional information available in their respective fields. Although these data are not pre-compiled or arranged in a published format, such information may be made available depending on time and resources, the subject matter under consideration and confidentiality by writing to the subject matter unit, 8th Floor General Purpose Bldg., Tunney's Pasture, Ottawa.

Telephone numbers of the subject-matter units, to which telephone inquiries should be directed, are listed on page 15 of the Introduction.

Des renseignements statistiques spéciaux sur les transports et les services d'utilité publique sont publiés dans les bulletins de service sur les transports et les communications. On peut obtenir à la Sous-section du transport par eau des statistiques sur l'origine et la destination des cargaisons, à destination ou en provenance du Canada ou de l'étranger, chargées et déchargées à tous les ports qui ne figurent pas dans les bulletins. Ces renseignements complètent la statistique similaire donnée pour les huit principaux ports canadiens dans "Transport Maritime Partie IV: Transport maritime international (par pays) (numéro de catalogue 54-206). Des données non publiées sur l'origine et la destination des marchandises, disposées comme la statistique qui paraît dans "Transport Maritime Partie V: Origine et destinations de certaines marchandises" (numéro de catalogue 54-207) est aussi disponible. On peut obtenir d'autres renseignements sur le transport par eau en s'adressant à la Sous-section du transport par eau, 8^e étage, édifice Polyvalent, Tunney's Pasture, Ottawa.

La Division offre en outre des statistiques sur les services d'utilité publique, le transport ferroviaire et le transport routier. Bien que ces données ne soient pas établies à l'avance ou prêtes à publier, on peut les obtenir sous réserve des restrictions qu'imposent les ressources, le temps disponible, le sujet à traiter et la confidentialité des données, à la sous-section, 8^e étage, édifice Polyvalent, Tunney's Pasture, Ottawa.

Les numéros de téléphone de ces sous-sections sont donnés à la page 15 de l'Introduction.

Statistical Publications of Other Federal Government Departments and Agencies

While the Dominion Bureau of Statistics as the national statistical agency publishes statistics on nearly all subjects, there are a number of statistical publications regularly issued by other government departments and agencies. The list below grouped by a subject arrangement similar to that in the main body of this catalogue, lists those which are of general interest and which are supplementary sources to DBS publications on the subject. Priced publications are available from Information Canada, except those of the Bank of Canada. Free publications can be obtained by writing to the Information Division of the Department publishing them.

Additional information as to services and information available by direct inquiry to the individual departments and agencies of the Government of Canada is contained in the publication "Federal Services for Business", published by the Department of Industry and Trade and Commerce, Ottawa. A comprehensive survey of statistical information contained in publications of DBS and other departments covering the area of labour can be found in "Guide to Federal Government Labour Statistics (DBS catalogue no. 72-509).

Agriculture

Canadian Farm Economics. Quarterly. English and French. Free.

Prepared by the Economics Branch of the Department of Agriculture. Contains articles and statistical tables giving information on current economic problems and developments of Canadian agriculture. Statistical appendix records average prices of selected farm commodities for various markets and grades and certain selected general D.B.S. price and production indexes of concern to agriculture.

Publications statistiques d'autres ministères et organismes de l'État

Bien que le Bureau fédéral de la statistique, en tant qu'organisme national de la statistique, publie des données sur presque tous les sujets, d'autres ministères et organismes de l'État publient régulièrement des documents statistiques. Les titres ci-après répartis par sujet suivant la même disposition que dans le corps du catalogue, sont des publications d'intérêt général et constituent des sources supplémentaires de renseignements sur des sujets donnés. Les publications peuvent s'acheter chez Information Canada, sauf celles de la Banque du Canada. On peut obtenir les publications gratuites en écrivant à la Division de l'information du ministère intéressé.

Des renseignements additionnels sur les services et les publications qu'on peut se procurer en s'adressant directement aux divers ministères et organismes de l'État sont donnés dans la publication "Services fédéraux à l'intention des hommes d'affaires" du ministère de l'Industrie et du Commerce à Ottawa. Le "Guide de la statistique du travail du gouvernement fédéral" (n° de catalogue du B.F.S. 72-509) constitue un répertoire complet des statistiques du travail publiées par le B.F.S. et d'autres ministères.

Tabulations of immigration by age, sex, marital status, country of last permanent residence, country of birth, occupation and ethnic origin. Also includes some historical tables. More limited statistics are published on a quarterly basis in the Department's "Quarterly Immigration Bulletin".

Studies and Reports

A number of departments are engaged in programmes of analysis of trends and developments which has resulted in the publication of studies and reports which often supplement the information contained in DBS publications. For example: The Economic Council of Canada has the responsibility for engaging in and publishing studies on the medium and long term prospects of the economy. Certain of its publications contain projections of economic and social activity based on statistical information obtained from the Bureau. Those wishing such projections should consult the publications of the Council.

Santé et bien-être

Bulletin statistique trimestriel. Anglais et français. Gratuit.

Rédigé par le ministère de la Santé nationale et du Bien-être social. Contient des détails sur la portée des divers programmes de sécurité sociale, comme ceux de sécurité de la vieillesse et d'assistance-vieillesse, des allocations familiales, des allocations aux aveugles et aux chômeurs. Immigration

Statistiques de l'immigration. Annuel. Anglais et français. Gratuit.

Établi par la Division de l'immigration du ministère de la Main-d'oeuvre et de l'Immigration. Répartition des immigrants selon l'âge, le sexe, l'état matrimonial, le pays de dernière résidence permanente, le pays de naissance, la profession et l'origine ethnique. Comprend aussi des tableaux chronologiques. Le "Bulletin trimestriel de l'immigration" renferme des statistiques semblables mais moins détaillées.

Études et rapports

Certains ministères s'occupent d'analyser les tendances et les événements; cela donne lieu à la publication d'études et de rapports qui souvent servent de complément aux statistiques publiées par le B.F.S. Par exemple: Le Conseil économique du Canada est chargé d'entreprendre et de publier des études sur les perspectives économiques à long et à moyen terme au Canada. Certaines de ses publications contiennent des projections de l'activité économique et sociale basées sur des statistiques du B.F.S. Ceux qui en désirent doivent consulter les publications du Conseil.

Following are examples of the Council's publications (The first four were prepared by the Council, and the last two by the Department of Manpower and Immigration):

1. *Sixth Annual Review, Perspective, 1975.*
(EC 21-1/1969. \$2.75)

On peut commander les publications susmentionnées à Information Canada (ci-devant Imprimeur de la Reine) en citant le titre, le numéro de catalogue et le prix. On peut consulter, dans les bibliothèques publiques et universitaires, les catalogues annuels des publications du gouvernement canadien, qui donnent la liste des études et rapports semblables. On peut se procurer une liste complète des études et rapports du Conseil économique en s'adressant au Secrétaire, Conseil économique du Canada, C.P. 257, Ottawa.

Title, Subject and Commodity Index

This combined Title, Subject and Commodity Index has been designed to help users locate the required publications. It contains numerous cross-references. Numerical references are to catalogue numbers of the publications for which further descriptive information is provided in the main part of this catalogue. All main words in titles are capitalized.

While this index contains several thousand references to subject and commodity data, not all subjects and commodities covered in the Bureau's current publications are listed. Excluded are the commodities covered in export and import statistics, which are adequately indexed in Volume III of the Export and Import Commodity Classifications (Catalogue Nos. 12-523 and 12-526).

Again, the publication "Products Shipped by Canadian Manufacturers" (Catalogue No. 31-211), contains a detailed alphabetical list of commodities manufactured in Canada, showing value and amount of production for the year covered. No reference is made to the publication in the index, except where the production statistics are not shown in any other publication. However, users may assume that manufactured commodities entered as appearing in other reports also appear in 31-211.

In the case of other omissions, the entries for related items often afford a clue to where information, if available, may be found. Lastly, the Bureau's coverage is increasing and those who cannot locate what they seek should send an inquiry to the Inquiries Section, Information Division.

Index des titres et des matières

Cet Index général des titres et des matières a été conçu en vue d'aider les utilisateurs à trouver les publications qu'ils désirent. Il contient de nombreux recoupements. Les références numériques renvoient aux numéros de catalogue des publications au sujet desquelles la partie principale du catalogue donne des renseignements plus détaillés.

Bien que l'index contienne plusieurs milliers de références à des sujets et à des denrées, tous les sujets et toutes les denrées mentionnées dans les publications régulières du Bureau ne sont pas énumérés. Sont exclues les denrées qui paraissent dans la statistique des exportations et des importations, qui est suffisamment indexée dans le Volume III de *Export and Import Commodity Classification* (n^{os} de catalogue 12-253 et 12-526).

En outre, le rapport détaillé intitulé «Products Shipped by Canadian Manufacturers» (n^o 31-211) contient une liste alphabétique des denrées fabriquées au Canada, qui donne, en outre, la valeur et le volume de la production pour l'année observée. L'index ne contient pas de renvois à la publication, sauf lorsque la statistique de la production n'est pas publiée ailleurs. Cependant les utilisateurs peuvent supposer que les chiffres des denrées fabriquées parus dans d'autres rapports figurent aussi dans le n^o 31-211.

Dans le cas d'autres omissions, les articles qui s'y apparentent indiquent souvent où, s'ils existent, on peut trouver les renseignements. Finalement, le nombre de publications du Bureau augmente sans cesse et ceux qui ne trouvent pas ce qu'ils cherchent devront communiquer avec la Section des renseignements de la Division de l'information.

Catalogue Supplément Statistics Canada

WALTER E. DUFFETT
Chief Statistician of Canada

INTRODUCTION

The Dominion Bureau of Statistics has now become Statistics Canada, and this supplement to the 1971 catalogue of publications is the first to appear under the new imprimatur.

Statistics Canada was established by the Statistics Act (S.C. 1970 - 71, Chapter 5) as successor to DBS, which had served as Canada's central statistical agency since May 24, 1918. The title of the bureau's principal officer was also changed, from Dominion Statistician to Chief Statistician of Canada.

This supplement lists and describes publications issued since the 1971 catalogue was compiled, announces discontinued titles, and notes title changes. New supplements will be issued at two-month intervals to keep users up to date on all aspects of information dealt with in the catalogue.

Publications listed in this supplement may be ordered from the Publications Distribution Unit under the same conditions as those described in the 1971 catalogue, or from Information Canada.

New serial publications will also be listed in the current subscription order form to facilitate ordering by new subscribers.

Further information about any publication listed in this supplement may be obtained by contacting the Inquiries Section, Statistics Canada, by mail or by telephone (992-2959, area code 613).

Supplément au catalogue Statistique Canada

WALTER E. DUFFETT
Statisticien en chef du Canada

INTRODUCTION

Le Bureau fédéral de la statistique est devenu Statistique Canada et le présent supplément au catalogue des publications de 1971 est le premier à porter la nouvelle appellation.

En vertu de la Loi sur la statistique (S.C. 1970 - 71, chapitre 15), Statistique Canada a pris la succession du B.F.S. qui remplissait le rôle d'organisme central de statistique au Canada depuis le 24 mai 1918. Le titre de premier responsable du bureau a également changé: le statisticien fédéral est devenu le statisticien en chef du Canada.

Le présent supplément énumère et décrit les publications parues depuis l'élaboration du catalogue de 1971; il signale l'interruption de certaines publications et les changements de titre de certaines autres. Tous les deux mois, des nouveaux suppléments seront publiés afin de tenir les usagers au courant de toutes les questions exposées dans le catalogue.

On peut obtenir les publications dont la liste se trouve dans le catalogue en s'adressant à la Sous-section de la diffusion des publications aux conditions décrites dans le catalogue de 1971. On peut aussi s'adresser à Information Canada.

Des nouvelles séries de publications seront ajoutées aux formules de commande courantes afin que les nouveaux abonnés puissent passer leurs commandes plus facilement.

Pour obtenir des renseignements sur toute publication mentionnée dans ce supplément, veuillez vous adresser à la Section des renseignements, Statistique Canada, en composant (613) 992-2959.

NEW PUBLICATIONS — NOUVEAUX TITRES

13: Comprehensive Studies

- 13-535 **Earnings and Work Experience of the 1967 Labour Force.** Occasional. 46 pp.

Earnings of male and female earners by size of earnings in 1967 and various personal characteristics. Distribution of families and unattached individuals by size of income and the work experience of the family head in 1967. Some comparisons with similar 1961 data. The data were obtained from the Survey of Consumer Finances taken in the Spring of 1968. 75

- 13-536 **Statistics on Low Income in Canada, 1967.** Occasional. 49 pp.

Low income cut-offs established for the analysis of the 1961 Census data were updated by the rise in the Consumer Price Index and all families and unattached individuals were categorized as having had incomes above or below these income cut-offs in 1967. Tables show distributions of low income families and individuals by characteristics such as work experience of family head, place of residence and other socio-demographic characteristics and contrast these with distributions of families and unattached individuals above the income cut-offs. Incidence of low income is estimated for many types of families and individuals, often showing in addition average family income, average family size, average number of children, etc. The data were obtained from the Survey of Consumer Finances taken in the Spring of 1968. 75

- 13-542 **Income Distributions by Size in Canada, 1969 Preliminary Estimates.** Occasional. 21 pp.

Estimates of family and individual incomes by size of income, region, family size, number of children, age and sex (of family head or individual). Tables contain preliminary estimates on the incidence of low income among various groups of families and unattached individuals in 1969 and describe the characteristics of low income families in contrast with other families. 50

31: Manufacturing — Fabrication

- 31-504 **Destination of Shipments of Manufacturers, 1967.** Occasional. Bil. 276 pp.

Dollar value of the destination of total manufacturers' shipments of goods of own manufacture by industry group and industry, by province of destination; and of the destination of total manufacturers' shipments of goods of own manufacture by industry and by province of origin. \$2.5

- 31-504 **Destination des expéditions des manufacturiers, 1967.** Hors série. Bilingue. 276 pages.

Valeur des expéditions totales de marchandises produites à la fabrique, par groupe d'industrie et par industrie, selon la province de destination; également la valeur des expéditions totales de marchandises produites à la fabrique, par industrie et par province d'origine. \$2.5

- 31-505 Growth Patterns in Manufacturing Employment by Counties and Census Divisions, 1961-1965.** Occasional. Bil. 138 pp.

Uses the industry mix-regional share technique for analyzing changes in manufacturing employment. Change in employment for each industry in a census division is compared with the national growth rate for all industries, and this difference is resolved into two components: that attributable to the particular industry's growth rate (industry mix) and the residual change (regional share). Includes an explanation of concepts and methods used. \$1.50

- 31-505 La croissance de l'emploi dans les industries manufacturières par comtés et par divisions de recensement, 1961-1965.** Hors série. Bilingue. 138 pages.

Analyse des variations de l'emploi dans les industries manufacturières au moyen des facteurs "composition industrielle" et "conditions régionales". La variation de l'emploi dans chaque industrie d'une division de recensement donnée est comparée au taux de croissance de l'ensemble des industries du pays et l'écart est décomposé en deux éléments: la partie attribuable au taux de croissance de l'industrie en cause (composition industrielle) et la variation résiduelle (conditions régionales). Avec explication de la terminologie et des méthodes utilisées. \$1.50

- 1-506 Interprovincial and Foreign Shipments of Selected Office, Household and Special Purpose Furniture, 1967.** Occasional. Bil. 5 pp.

Shipments of selected office, household and special purpose furniture (21 items) by province of manufacture and by first destination. 25¢

- 13-203 Industrial Research and Development Expenditures in Canada. Annual. Bil.
Approx. 60 pp.

Data includes expenditures and manpower devoted to scientific research and development in Canadian industry. These data are generally shown by industry, industry group, ownership groups or size group. Expenditures are classified by source of funds and nature of expenditures. Manpower estimates are classified by level of training and present function. **\$1**

- 13-203 Dépenses au titre de la recherche et du développement industriels au Canada. Annuel. Bilingue. Environ 60 pages.

Renseignements concernent les dépenses et la main-d'oeuvre consacrées à la recherche et au développement industriels au Canada. Ils sont présentés en général par industrie, groupe industriel, groupe d'appartenance ou classe de grandeur. Les dépenses sont classées par source de fonds et nature des dépenses. Les estimations de la main-d'oeuvre sont classées par niveau de formation et fonction actuelle. **\$1**

13-535 Earnings and Work Experience of the 1967 Labour Force. Occasional. 46 pp.

Earnings of male and female earners by size of earnings in 1967 and various personal characteristics. Distribution of families and unattached individuals by size of income and the work experience of the family head in 1967. Some comparisons with similar 1961 data. The data were obtained from the Survey of Consumer Finances taken in the Spring of 1968. 75¢

13-536 Statistics on Low Income in Canada, 1967. Occasional. 49 pp.

Low income cut-offs established for the analysis of the 1961 Census data were updated by the rise in the Consumer Price Index and all families and unattached individuals were categorized as having had incomes above or below these income cut-offs in 1967. Tables show distributions of low income families and individuals by characteristics such as work experience of family head, place of residence and other socio-demographic characteristics and contrast these with distributions of families and unattached individuals above the income cut-offs. Incidence of low income is estimated for many types of families and individuals, often showing in addition average family income, average family size, average number of children, etc. The data were obtained from the Survey of Consumer Finances taken in the Spring of 1968. 75¢

13-538 Family Incomes (Census Families), 1967. Occasional. 21 pp.

Distributions of census families and persons not in families by size of their income, major source, region, age, sex and other characteristics. Discussion of differences in family definition; comparison of numbers and incomes of census families and economic families, also for persons not in families and unattached individuals (economic family definition). 50¢

13-539 Comparative Income Distributions, 1965 and 1967. Occasional. 58 pp.

Section I includes estimates for the two years of individual income recipients, and families and unattached individuals by income size group measured in constant (1961) dollars. Tables show distributions by age, sex, family size, region, etc. Section II of report consists of tables describing the composition of income quintiles in the two years. This report updates estimates published in Catalogue 13-529 except that the data coverage is no longer restricted to non-farm families and individuals. 75¢

13-542 Income Distributions by Size in Canada, 1969 Preliminary Estimates. Occasional. 21 pp.

Estimates of family and individual incomes by size of income, region, family size, number of children, age and sex (of family head or individual). Tables contain preliminary estimates on the incidence of low income among various groups of families and unattached individuals in 1969 and describe the characteristics of low income families in contrast with other families. 50¢

- 31-505 Growth Patterns in Manufacturing Employment by Counties and Census Divisions, 1961-1965. Occasional. Bil. 138 pp.

Uses the industry mix-regional share technique for analyzing changes in manufacturing employment. Change in employment for each industry in a census division is compared with the national growth rate for all industries, and this difference is resolved into two components: that attributable to the particular industry's growth rate (industry mix) and the residual change (regional share). Includes an explanation of concepts and methods used. **\$1.50**

- 31-505 La croissance de l'emploi dans les industries manufacturières par comtés et par divisions de recensement, 1961-1965. Hors série. Bilingue. 138 pages.

Analyse des variations de l'emploi dans les industries manufacturières au moyen des facteurs "composition industrielle" et "conditions régionales". La variation de l'emploi dans chaque industrie d'une division de recensement donnée est comparée au taux de croissance de l'ensemble des industries du pays et l'écart est décomposé en deux éléments: la partie attribuable au taux de croissance de l'industrie en cause (composition industrielle) et la variation résiduelle (conditions régionales). Avec explication de la terminologie et des méthodes utilisées. **\$1.50**

- 61-510 Indexes of Real Domestic Product by Industry, 1961 - 69, 1961 = 100. Occasional. E. and F. Approx. 90 pp.

Introduces monthly RDP indexes and covering revisions to the Real Domestic Product (RDP) by industry of origin data (including its Index of Industrial Production component) for the 1961 - 69 period. The revisions include the incorporation of the latest annual and quinquennial census levels, the final 1961 industry weights, revised seasonal adjustment, new monthly indicators and revised methodology. The report updates the system of Real Domestic Product indexes published in occasional paper catalogue no. 61-506, and contains annual, quarterly and monthly tables, providing data for a wide range of industries and industry groups for the period from 1961 to 1969. The newly-developed monthly Real Domestic Product indexes are featured in tables 2 and 3 for the 1961 - 69 period. Quarterly indexes are included for the convenience of users. These revised data are kept up-to-date in the monthly report, "Indexes of Real Domestic Product by Industry (Including the Index of Industrial Production)" — 61-005 — beginning with the December, 1970 issue.
